

House Cleaning Service Website

Developed a fully responsive website for a house cleaning service using WordPress and Elementor. The website aims to provide users with an easy way to learn about the cleaning services offered, book appointments, and get in touch with the company. The design emphasizes user experience, showcasing the company's professionalism and dedication to quality cleaning services.

Key Features:

- Responsive Design: Ensured a fully responsive layout that delivers a seamless experience on all devices, including desktops, tablets, and smartphones.
- WordPress CMS: Utilized WordPress for efficient content management, enabling the client to easily update service details and promotions.
- Elementor Integration: Leveraged Elementor for creating a visually appealing and user-friendly interface, enhancing user engagement.

- Service Listings: Included detailed descriptions of various cleaning services offered, such as residential cleaning, deep cleaning, and special event cleaning.
- Online Booking System: Implemented a simple online booking system, allowing customers to schedule cleaning services directly through the website.
- SEO Optimization: Applied SEO best practices to enhance the website's visibility on search engines, attracting more local customers.

- **Tools and Technologies Used:**

- WordPress
- Elementor
- SEO plugins for optimization
- Booking plugins for service scheduling
